

Urban Art ITINERARY

Follow this itinerary and discover the various examples of this art in Vila do Conde.

Currently a growing trend around the world, urban art aims to dignify abandoned spaces or vacant buildings, giving them a new look, drawing attention to them, bringing art to the street, outside its expected context of a museum or gallery. of art, democratizing it, making it closer to everyone who walks the streets, associating itself, in countless cases, to cultural contexts specific to the territory in which they are inscribed.

Recently, a new mural by Daniel Eime was inaugurated, located on the west facade of the House of José Régio in evocation of the 50th anniversary of his disappearance, thus contributing to the continuation of the affirmation of our city in the urban art circuit of the country.
